Strategic Collaboration with Adjutor Group
- Strengthening Support Capabilities across Japan, Australia, and New Zealand -

Micron, Inc. (“Micron”), headquartered in Tokyo, Japan, has entered into a non-exclusive strategic collaboration agreement with Adjutor Group (“Adjutor”), headquartered in Melbourne, Australia, with the aim of strengthening clinical development and regulatory support capabilities across Japan, Australia, and New Zealand.

Adjutor Group is comprised of multiple corporate entities, including Adjutor Clinical (a CRO) and Adjutor Healthcare. Adjutor Clinical provides a full range of CRO services supporting the execution of clinical trials in the pharmaceutical and medical device sectors. Adjutor Healthcare provides development, regulatory and commercialization consulting services across first and second tier global markets.

Leveraging its expertise in medical imaging, Micron offers clinical development and regulatory support services for pharmaceuticals, medical devices, and Software as a Medical Device (SaMD).

Through this collaboration, the two companies will leverage their respective expertise and networks to create new business opportunities for pharmaceutical and medical device manufacturers. Activities will include mutual project referrals, joint projects, joint webinars, and industry-focused information sharing in the areas of clinical development, regulatory affairs, and market access.

In addition, by strengthening collaboration between Japan and Australia and New Zealand, Micron and Adjutor aim to deepen mutual understanding and cooperation, while exploring opportunities to support future cross-border development projects.
