Micron, Inc.

Press Release

Selected as a Finalist for the Best Contract Research Organization Award at the Citeline Japan Award 2024.

Tokyo, Japan – Micron, Inc. (Headquarters: Minato-ku, Tokyo), We received the Best Contract Research Organization (Best CRO) award at the Citeline Japan Awards 2024.

The Citeline Japan Awards(<https://www.citeline.com/en/awards/citelinejapanawards>) is the Japanese version of the Scrip Awards, which has been held in the UK for 20 years. This was the third year for this growing Awards event in Japan, which has met with great success and much interest from the industry in this key global pharma market. The Awards recognize the outstanding advancements and innovations in Japanese pharma and biotech, highlighting Japan's integral role in the global healthcare market. This is an honored award to receive in this industry.

The Best CRO award is highly regarded and recognizes contract research

organizations that provide full or specialist services to their clients and which have an office or other base (but not necessarily a head office) either in Japan or the Asia region, including Australia.

Micron was established in 2005 and is now in its 20th year. From a time when the term 'Imaging CRO' was not yet widely recognized, we have been introducing unique imaging technologies that other companies do not have. With a business policy of contributing to healthcare and targeting niche areas, we are currently developing businesses in Software as a Medical Device (SaMD) and Theranostics.

Our company plans to accelerate its overseas expansion, focusing on our imaging analysis business. Additionally, we will put effort into attracting overseas clients to Japan and providing support in the clinical development and SaMD businesses. Utilizing imaging technology, we will continue to strive towards higher goals as the only company in Japan capable of providing comprehensive support in the clinical development of pharmaceuticals and medical devices.
